## Summary

Over 5 years' experience in advanced machining, using both 3 and 5 axis HAAS CNC Machines. Reading blueprints, using measuring equipment such as height gages, comparators, Micrometers, Calipers, Drop gauges, and Bore Gauges

## Highlights

- Proficient use of measuring equipment
- Able to hold tight tolerances
- Proficient on 3-axis and 5-axis Haas CNC Machinery

## Work History

### **Machine Operator**

12/2012 to present

*Trigon International*

Aurora, IL

- Set up and operate both 3 and 5 axis HAAS and Mori Seiki CNC machines
- Complete minor setups and operate 3-5 machines at a time
- Hold tolerances of  $\pm .002$ "
- Use precision measuring equipment including micrometer, calipers, and gauges
- Comfortable reading blueprints and utilizing them for inspections

### **Machine Operator**

10/2012 to 12/2012

*Global Gear*

Downers Grove, IL

- Operate CNC Machines to produce products within customers tolerances
- Responsible for general housekeeping duties
- Operate CNC Grinder as needed
- Inspect parts for quality assurance using measuring tools

### **Machine Operator**

08/2012 to 10/2012

*LB Steel*

Harvey, IL

- Operate manual Lathes and Borland Grinder
- Responsible for operating 3-axis CNC Machine
- Handle in process quality inspection
- Maintain a safe and clean work environment

### **Finish Grinder**

08/2006 to 10/2008

*Chrome Crankshaft*

Joliet, IL

- Operate Waukegan grinder
- Remove excess chrome plating on Crankshafts
- Utilize measuring equipment including micrometers, calipers and gauges

### **Dywidag**

10/2002 – 8/2006

*Grinder*

Bolingbrook, IL

- Operate a manual grinder
- Responsible for finish grinding and steel plating
- Manufacturing parts for the shipping and locomotive industry
- Performs quality checks using micrometers, calipers and gauges
